## Message from the Principal

教育，不但是知識的傳承，更重要是給予機會，而機會往往是留給有準備及願意接受轉變的人。

學校致力為學生營造一個多元學習的環境及平台，幫助學生培養各方面的能力，充份發揮他們的潛能。我們著力讓同學在成長中經歷學習的甘甜、失敗的磨練、進步的喜悅。透過學生親身參與，作出不同嘗試，從學習的過程和成果中獲得樂趣、滿足感。即使學生偶有失敗，也能了解自己的限制，調整後重新出發，鬥志變得頑強，更能突破自我。

不論是學業成績，還是品格培育，我們將透過「正向教育」，發展學生個人品格的強項及建立正面情緒，培育他們正確的價值觀，如：良善、真摯、忠孝、仁義、誠信和友愛等，正如校訓中「崇德」、「尚藝」並存。

因著時代轉變，學校需要不斷求進、不斷創新、不斷突破。教師需把握機會突破固有思想，以科技融入教學，擴闊學習空間，提升教學的趣味及效能，令教學煥然一新。我們的學習不限於書本上，更應與生活結合，通過解決生活中的問題，將知識融會貫通，悉心栽培同學成為新一代的年青人，為日後投身社會作準備，從容面對未來人生路上的大小挑戰。

我們憑著耶穌基督的寬宏大愛，燃點生命之光，以照亮更多孩子，引領他們的前路，正如主耶穌在教導門徒時所作的榜樣一樣。我們深信憑著學校專業團隊的群策群力、堅定的信念及外間資源協助，定能推動學校持續發展，保持優勢，迎接及創造更多機遇。

Education is not only the passing on of knowledge, but also empowering students to be up for challenge. Opportunities are always available for those who are ready and willing to change.

The school is committed to creating a diverse learning environment and platform for students to develop their abilities and fully utilize their potentials. We strive to let our students experience the fruits of learning, the tempering of failure and the joy of improvement. We believe that students would gain both fun and satisfaction from the learning process and outcome, by hands-on participation and attempts. Even students occasionally fail, they can understand their own limitations, adjust themselves and set off again, from which their perseverance and ability to breakthrough are also strengthened.

Through Positive Education, we develop students' personal character strengths, build positive emotions and instill right values, such as gentleness, sincerity, filial piety, benevolence, righteousness, integrity, affection, and etc. These benefit both students' academic achievements and moral cultivation, while also echo with the School Motto of "praising virtues" and "perfecting disciplines".

As time progresses, the school needs to constantly seek for advancement, innovation and breakthroughs. Teachers have to seize the opportunity brought by technology to innovate teaching, broaden learning space and enhance teaching effectiveness, so as to take on an entire new look of education. Learning should not be limited to books, but be integrated with life – through solving real life problems, we cultivate and prepare our students for future society and challenges.

With the love of Jesus Christ, we ignite the light of life to illuminate more children, leading them to the right way, just as how Jesus Lord set example for His disciples. We believe that the school, equipped with the dedication of a professional team, firm belief and external resources, shall be able to develop sustainably, maintain our advantages, meet and create more opportunities.

## 教育無邊界 Teach Unlimited Foundation

### 「啟導友師」與學生同行，一同成長

過去兩年，學校得到「教育無邊界」的支援，派駐兩位友師到校，與學生開展個別啟導工作。

兩位啟導友師在學校透過個別面談、英文支援和不同的校本活動，以提升學生的自尊感、學習態度和學習動機。友師採取積極的價值觀為切入點，幫助學生加強對學習和將來的承擔。學生的抗逆力和自制力得以增長，繼而推動其終生學習的正面態度。

### 英文小組學習支援

## 學生成長及支援 Student Support

### 正向心靈 豐盛旅程 Positive Education

「正向心靈、豐盛旅程」正好代表了何明華會督中學的學生成長工作。既是豐盛旅程，自然是多姿多彩、令人目不暇給。豐富的成長活動，讓學生重新發現自己、發揮自己、肯定自己。

正向是近年學校的焦點，何明華的正向不是單單追求快樂的正向。離境義工、外展訓練、山區服務等活動都盡顯我們無懼挑戰、迎難而上的何明華精神。

Student support work in BHSS is like an enriching journey for students. Through all the nourishing and fruitful experiences, students rediscover and affirm themselves, realizing their potentials to the fullest.

Positive Education is one of the school highlights in recent years. Our Positive Education is not just about the pursuit of happiness, but the BHSS spirit of resilience and perseverance. Our students show how they step up to challenges when they participate in overseas volunteering, Outbound Bound training, and etc.

### 發揮創意 實踐價值 Innovation and Value Education

今年，我校率先開展中一級創意價值教育課「玩·創·隨意門（Innopower）」。我們相信每個學生都是獨特的，有不同才能，亦有無限的可能性，因此課程設計突破以往的框框，以著名心理學家 Dr. Martin Seligman 的正向心理學為基礎，配合 Feel-Touch-Think-Act 的模式，讓學生透過不同面向的實踐和反思，了解自己，並培養同理心、感恩、堅毅等正面價值觀。

A school-based Innovation and Value Education course, InnoPower, was launched in 2017. We believe that each student is unique, and possesses different talents and unlimited possibilities. The course design, based on the Positive Psychology by Dr. Martin Seligman, is groundbreaking. Coupled with the Feel-Touch-Think-Act mode, students are able to reflect upon themselves, understand and act from different aspects, while positive values such as empathy, gratitude and perseverance are also cultivated.

## 面對挑戰 堅持不懈 Outward Bound

此外，我校於 2016 年開始推行「中四級正向旅程培育計劃」，計劃由利希慎基金資助，伙拍聖雅各福群會推行正向課程，讓每級中四學生進行高難度的外展訓練和挑戰。在汗水與堅持中發掘自己的優點和缺點，從而建立自信及取得成功感。

2018 年的外展訓練日子定於 1 月中，學生在嚴冬之下迎來外展訓練。過程雖然挑戰不斷，但學生不懼艱辛，成功完成 10 日 9 夜的課程，相信這段難忘的回憶已深刻烙印在每位學生的腦海中，鼓勵著他們迎接未來生命的挑戰。

學生進行“Jetty Jump”挑戰

Funded by Lee Hysan Foundation, and with the support of St James Settlement, the school has started a three-year “S4 Positive Education Programme” from 2016-2019. Each S4 student has the chance to join a challenging outward bound training, to gain confidence and sense of fulfillment, while discovering their strengths and weaknesses.

Despite facing challenges, students overcame hardships and completed the 10-day training in cold winter. The unforgettable experience would surely leave a mark on every student, encouraging them to stand up to future challenges in life.

## 遊學經歷 開拓視野 Overseas Experiences

全球化已成為發展趨勢，為提升學生的競爭力，本校每年均提供多元機會讓學生參與不同地方之遊學團，例如斯里蘭卡、澳洲、英國及台中等，讓學生在當中能豐富自己經歷，並拓展國際視野。

To enhance the competitiveness of students, seeing the prominence of globalization, the school offers students multiple opportunities to participate in overseas exchange tours to places all over the world, such as Sri Lanka, Australia, the United Kingdom, Taiwan, etc. Overseas experiences broaden students' horizons and provide them with global vision.

合力過難關

## 提早適應 融入校園 S1 Orientation

本校重視每一位學生，明白中一新生剛踏入何明華，或會對中學生活感到疑惑。為了讓他們提早適應中學生活、感受何明華「剛強」和「仁愛」精神，學校每年暑假均舉行中一新生適應課程，內容包括中文、英文、數學、STEM 活動和樂器體驗等，讓他們體驗未來的學習和活動。此外，學生由班主任帶領進行班級經營及團隊合作活動，互相認識，建立友誼，培養學生對學校的歸屬感。

The school attaches importance to every student and understands that S1 students who just enter BHSS may be confused about their secondary school life. In order to help new students to adapt to secondary school life and feel the spirit of BHSS, the school organizes S1 Bridging Course every summer. Class content includes Chinese, English, Mathematics, STEM, and instrument tasting sessions, which let students experience their upcoming learning and activities. Besides, students will be assigned to different classes led by class teachers for team building activities, so that they can meet and befriend new classmates. Students' sense of belonging to school is hence built.

## 資優教育 盡展所長 Gifted Education

本校積極發展資優教育，發掘於人文學科、科學、數學及領袖範疇資賦優異學生。每個學期，學校都採用教育局提倡的「三個層次推行模式」，第一層次在一般課堂加入高層次思維技巧、創造力和個人及社交三大資優元素，並進行分流教學，照顧學生的需要；第二層次以抽離方式進行增潤課程或特定性質的課程，提升在特定範疇表現優異的學生的能力；第三層次為特別資優學生提供個別化的校外資源，並定期跟進學生在校外的活動情況。本校亦不時舉辦工作坊及提供不同機會，讓學生充分發揮個人所長和潛能。

Our school actively promotes Gifted Education, adopting the Three-Tier Model, to discover talents of students who excel in humanities, science, mathematics and leadership. Level 1 is to immerse high-order thinking skills, creativity and personal-social competence in the curriculum, and to differentiate teaching through appropriate grouping of students, catering different needs. Level 2 is to conduct pull-out programmes of generic nature or specific areas, to train up students with outstanding performance in specific domains. Level 3 is to provide personalized off-site support with external resources, while students' progress outside school is also being followed up. The school also organizes workshop and offers opportunities for students from time to time, to let students fully realize their potentials and strengths. Their excellence and remarkable results in different competitions are truly encouraging.
